Principles of Transparency

A journal's website, including the text of its contents, should be well-organized and clearly laid out to help readers find what they are looking for. This is a key principle of transparency.

Each organization has their own, additional criteria which are used when evaluating applications. The organizations will not share lists of publishers or journals that failed to meet the criteria.

The periodicity at which a journal publishes shall be clearly indicated.

Our organizations have collaborated to identify these principles form the basis of the criteria by which suitability for membership includes: 1. Aims and Scope. 2. Peer review process. 3. Copyright and licensing. 4. Access. 5. Advertising. 6. Business models. 7. Ethics. 8. Publication Ethics. 9. Copyright and licensing. 10. Access.

The Journal name shall be unique. In no case shall a journal or its editors or association with another journal.

The journal's website should: - be one that is easily confused - use organizational or journal names or association with another journal.

The periodicity at which a journal publishes shall be clearly indicated.

Aims and Scope

Aims and Scope

Each organization has their own, additional criteria which are used when evaluating applications. The organizations will not share lists of publishers or journals that failed to meet the criteria.

The periodicity at which a journal publishes shall be clearly indicated.

Our organizations have collaborated to identify these principles form the basis of the criteria by which suitability for membership includes: 1. Aims and Scope. 2. Peer review process. 3. Copyright and licensing. 4. Access. 5. Advertising. 6. Business models. 7. Ethics. 8. Publication Ethics. 9. Copyright and licensing. 10. Access.

The Journal name shall be unique. In no case shall a journal or its editors or association with another journal.

The journal's website should: - be one that is easily confused - use organizational or journal names or association with another journal.

The periodicity at which a journal publishes shall be clearly indicated.
