This course will cover how to effectively detect and deal with possible misconduct and show the importance of having sound ethical policies.

Programme
• Editors’ views on ethical issues
• Introduction to publication ethics
• How can misconduct be detected?
• How to deal with suspected misconduct
• Retractions and corrections
• How can publishers’ policies prevent misconduct?

By the end of the course delegates will:
Be aware of the main ethical issues that arise in academic publishing, understand how editors view ethical issues, be aware of techniques for detecting misconduct, have greater confidence in handling cases of possible misconduct, understand guidelines relating to misconduct (in particular, the COPE guidelines on retractions), appreciate how publishers’ policies and practices can ensure ethical publishing.
